- C. ENVIRONMENTAL ASSESSMENT AND AIRPORT LAND USE COMPATIBILITY PLAN (FILE NO. PADV07-008):** A request to approve the Airport Land Use Compatibility Plan and adopt a Negative Declaration of environmental impacts. The function of the Airport Land Use Compatibility Plan (ALUCP) is to promote compatibility between LA/Ontario International Airport (ONT) and surrounding land uses as provided in the State Aeronautics Act (Public Utilities Code, section 21670 et. seq.). The proposed ALUCP consists of several components including: airport and land use information, compatibility policies and criteria, compatibility zone maps and procedural policies. The proposed ALUCP for ONT would supplement the Airport Environs section of The Ontario Plan (Ontario's General Plan), which currently serves as ONT's airport land use plan. The geographic scope of the ALUCP is the Airport Influence Area (AIA), the area in which current or future airport-related noise, safety, airspace protection and/or overflight factors may affect land uses or necessitate restrictions on those uses. The AIA includes portions of the Cities of Ontario, Fontana, Upland, Montclair, Rancho Cucamonga, Chino, Pomona, Claremont and unincorporated portions of San Bernardino, Riverside and Los Angeles Counties. Staff is recommending the adoption of a Negative Declaration (ND) of environmental effects for the project. Continued from Planning Commission meeting of February 22, 2011.

MATTERS FROM THE PLANNING COMMISSION

Vice-Chairman Delman stated he attended sessions at the 2011 Planner's Institute Conference and he enjoyed the session titled, "Producing Middle-Income Workforce and Employer-Assisted Housing." The session educated on reducing energy costs and focused on income level studies. He stated he would like to speak to Brent Schultz, Housing & Neighborhood Revitalization Director, about these topics.

He also stated the session titled, "Sign regulation in the Digital Age," gave him new prospective on free speech.

Mr. Blum spoke about the greenhouse gas issue stating that the City of Ontario hired an individual last year to work on the Climate Action Plan and Greenhouse program. He stated we are different than any other county in the State of California and we are putting together a Model Climate Action Plan through to coalition of SCAG. A major part of this is having tools that are specific for our city. SCAG is currently putting together a project that will look at the tools and find out how costly they are and what how useful they are to us, so that we may get the most usage out of them for the cost. Mr. Blum has a position

on this sub-committee as well.

Commissioner Reyes stated he finds that an approach with humor in a meeting can be effective.

Mr. Blum stated each city is different in their approach. We have to be human and humor is sometimes a way to get the point across. A study shows that we can actually learn more in a “humor” mode.

Commissioner Gage complimented the newer Commissioners’ reports on what they learned from the 2011 Planner’s Institute Conference.

Chairman Gregorek stated he attended a Planning Commission meeting at a nearby city and saw differences and he appreciates how the City of Ontario staff works with the Planning Commission.
