## SECTION: CONSENT CALENDAR

**SUBJECT: ADOPT A RESOLUTION APPROVING ADDENDUM NO. 1 TO THE 2005 URBAN WATER MANAGEMENT PLAN**

**RECOMMENDATION:** That the City Council adopt a resolution approving Addendum No. 1 (on file with the Records Management Department) to the 2005 Urban Water Management Plan (UWMP).

**COUNCIL GOALS:** Invest in the City's Infrastructure (Water, Streets, Sewers, Parks, Storm Drains and Public Facilities)

**FISCAL IMPACT:** The water programs described in the UWMP are consistent with existing water recycling, conservation and planning programs and activities of the Utilities Department, the costs of which are included in the City's current rates and adopted budget. There is no impact to the General Fund.

**BACKGROUND:** The State Urban Water Management Planning Act (Water Code Section 10610 et. seq.) mandates that every urban water supplier providing water for municipal purposes to more than 3,000 customers or supplying more than 3,000 acre-feet of water annually (acre-ft/yr) prepare an Urban Water Management Plan (UWMP) to specify long-term water resource planning objectives and ensure adequate water supplies to meet existing and future demands. The UWMP is required to be adopted by City Council and then approved by the State Department of Water Resources (DWR).

The 2005 UWMP was adopted by the City Council on December 20, 2005, and submitted to DWR for approval. Comments were received from DWR in February 2008. City staff responded to DWR's comments and provided supplemental information. DWR reviewed and accepted the supplemental information, and requested that this supplemental information be included as an addendum to the 2005 UWMP and adopted by City Council. Addendum No. 1 contains the supplemental information that has been reviewed and accepted by DWR. Once Addendum No. 1 is approved, the UWMP will remain valid for the period from 2005 through 2010, at which time an update is mandated by State law.
